This document above is modified from the Health and Safety Executive and Sport England Guidance on developing a safety policy document.

All accidents and incidents which are not immediately documented by a member of the Sports Service (e.g. by a first aider at the University Sports Centre), where an accident resulted in injury or incident had the potential to cause injury or ill health during:

- An organised tennis match;
- Training;
- Event or endorsed activity; or
- Travelling to or from the aforementioned activities

Must be reported to the Sports Service Safety Officer. If this applies to you, please contact Katherine Fordington at wkyw2@cam.ac.uk who will oversee your completion of the initial report, which can be found at www.sport.cam.ac.uk/injury-and-incident-reporting. The report should be sent as soon as possible after the incident/accident has taken place. When completing the report, please include as much information as possible. Consider methods of recording details of accidents/incidents e.g. taking names of witnesses, photographs and details of circumstances to aid you and others in investigation should this be necessary.

Having submitted a report, Katherine will then contact you for further information as she will need to make a judgement on whether further actions are necessary, such as a full investigation and/or new control measures to prevent recurrence.
